

ABC Dry Powdered AFO Fire Extinguisher Ball

Features:

Weight: 1.3 Kg

Shape ball Diameter :15cm

Content: Import Harmless Dry powder

Auto Reaction time: 3-5 seconds

Methods of Use: Fixed Point Automatic induction

Light Weight : only 1.3 kg

Strong Construction

Elevated Durability

Weight	1.3kg
Shape Ball-diameter	15cm
Methods of use	Fixed point automatic induction/input
Auto reaction time	3-5 seconds
capacity	75-grade powder
Temperature Range	-65°F to 120°F
Filling Density	0.667 Max
Working Temperature	-30° C to 55° C
Weight of one charged extinguisher	12.5 kg (approx)
Standard Specification	IS 15683:2006
Suitable for	B and C Class Fire
