

Conventional Alarm Bell

Features

- Proven high reliability
- Interchangeable base
- Wide operating voltage range, 12VDC and 24VDC
- Zero standby current
- Low current consumption
- Loud and clear ringing tone, Decibel rating @ 1m = 95dB (24V, 0.03A).

Voltage	DC 6V, 12V, 24V; AC 110V, 220V, 240V
Applicate	Industry, longtime
Size	55mm,="" 75mm,="" 100mm,="" 150mm,="" 200mm,="" 300mm=""
Current	50, 80, 97, 100, 105, 125, 150mA
current consumption	Low
Integral RFI suppression	Minimize induced noise on the alarm circuit
DC Voltage available	12V and 24V
Quiescent current	1μA
Alarm current	25 mA at 24V 12 mA at 12V
Normal Indicator	Green LED(Blinks during scan)
Alarm	Red LED (Glows Steady)
Operating temperature	0°C to 49°C
Dimensions(HXWXD)	120x120x48mm

Exclusive Distributon in Bangladesh
