

Features

- *High resolution images
- *Simple User-friendly operation
- *Strong image storage capacity
- *Automatic Self-diagnostic maintenance system
- *One Key shutdown control

Parameter

- *Tunnel Size: 530mm (W)*350mm (H)
- *Load Weight: 150Kgs
- *Conveyor Speed: 0.2-0.23m/s
- *Radiation Leakage: 0.10 μ G/h
- *Penetration: 43mm steel
- *X-ray resolution: 40 AWG

X-Ray Generator

- *X-ray Beam Direction: From bottom
- *Beam Divergence: 80°
- *Tube Voltage: 80-160Kv
- *Electronic Current: 0.2-1.25mA
- *Cooling: Sealed oil cooling + 100% Dutycycle

Image Function

- *X-ray Converter Arrangement: Dual Energy L-shaped photodiode array detector

*Inorganic/Organic Stripping:Organic substances display in Orange, Inorganic substances display in blue, mixtures display in green

*Maximum Image Resolution:1024*768

*Image Storage:100,000pcs

*Image Display Color: Black /White & Color

*Grey Level: 65536

*Zone & Zoom: 32 times zooming

*Other Function: Alarm, Review, Density Enhancement, Negative/positive image, Light/Dark Enhancement, automatic count, One Key Power Off, Working status display, Date & time display, Rush Stop Protection, Dangerous Alarm, System Failure Alarm etc.

Exclusive Distributon in Bangladesh
